- **Myanmar Maritime University**
  BE (Marine Engineering)
  2014-Present

PROFILE INFO

I am a passionate youth with the dream of being a part of the developing programming world. I have a great passion for learning new computer languages and new experiences. I would like to face every possible challenge and never disincline for troubleshooting to achieve a successful career as a web developer. I am currently practicing my coding skills on my own and want the experience of a real-world coding process I would love to do everything I can for that.
